

K-Love has brought so much to my life and without it my day is not complete. K-Love has saved lives for people who had no hope. Please keep K-Love on all the stations in the Nation. We need to be able to hear the encouraging word. This maybe the only way that God is able to come into peoples lives. Music helps people to understand how important God is to our lives.

We can turn on K-Love and not be afraid that our children and grandchildren will hear such smut that takes place on so many other stations. I hope that you have listened to this station and know just how important it is to people.

Thank you so much for reading my comments and I hope that you will consider leaving K-Love on all the stations around the nation.

Sincerely,  
Letitia Turnmire
